

## Project 4 – Save Your Fork

Steps	Description	Pts	Task Complete?
1.	Using your text editor, open the <b>sf_torte_txt.html</b> and <b>sf_effects_txt.css</b> files from <b>Module 4 → Project 4</b> folder. Enter your name and the date in the comment section of each file and save them as <b>sf_torte.html</b> and <b>sf_effects.css</b> respectively.	1	
2.	Go to the <b>sf_torte.html</b> file in your text editor. Within the document <b>&lt;head&gt;</b> element, insert three <b>&lt;link&gt;</b> elements and set the <b>href</b> attributes to the <b>sf_base.css</b> , <b>sf_layout.css</b> , and <b>sf_effects.css</b> stylesheet files in that order. Take some time to study the structure of the document and then close the document, saving your changes.	2	
3.	Go to the <b>sf_effects.css</b> file in your text editor. Within the Body Header Styles section, create a style rule for the <b>&lt;body&gt;</b> element. Use the <b>body</b> selector and set the <b>filter</b> property to <b>drop-shadow ( rgb(51, 51, 51) 10px 10px 50px) drop-shadow( rgb(51, 51, 51) 10px -10px 50px)</b> .	4	
4.	Go to the Navigation Tabs List Styles section. Create a style rule for the <b>body &gt; header nav.tabs</b> selector that sets the <b>background</b> property to <b>url('sf_back1.png') center center/ 100% no-repeat</b> .	4	
5.	Create a style rule for the <b>body &gt; header nav.tabs li</b> selector that transforms the list item by setting the <b>transform</b> property to <b>perspective(50px) rotateX(20deg)</b> .	2	
6.	Create a style rule for the <b>body &gt; header nav.tabs li:hover</b> selector to set the <b>background-color</b> property to <b>rgb(231, 231, 231)</b> .	3	
7.	For the vertical navigation lists: in the left section, create a style rule for the <b>section#left nav.vertical</b> selector that sets the <b>border</b> property to <b>1px solid rgb(20, 167, 170)</b> and the <b>border-radius</b> property to <b>25px</b> .	4	
8.	Create a style rule for <b>&lt;h1&gt;</b> elements nested within the left section vertical navigation list. Use the <b>section#left.vertical h1</b> selector to set the <b>border-top-left-radius</b> and <b>border-top-right-radius</b> properties to <b>25px</b> .	3	
9.	Create a style rule for the <b>section#center article</b> selector that: <ul style="list-style-type: none"> <li>a. Sets the <b>background</b> property to <b>radial-gradient(white 30%, rgb(151, 151, 151))</b>.</li> <li>b. Sets the <b>border</b> property to <b>1px solid rgb(151, 151, 151)</b> and the <b>border-radius</b> property to <b>50px</b>.</li> <li>c. Sets the <b>box-shadow</b> property to <b>rgb(51, 51, 51) 10px 10px 20px</b>.</li> </ul>	6	
10.	Go to the Blockquote Styles section. For every <b>&lt;blockquote&gt;</b> element, use the <b>blockquote</b> selector to create a style rule that does the following:	6	

	a. Sets the <b>background</b> property to <code>url('sf_speech.png')</code> <b>no-repeat</b> and the <b>background-size</b> property to <code>100% 100%</code> . b. Sets the <b>filter</b> property to <code>drop-shadow( rgb(51, 51, 51) 5px 5px 10px)</code> .		
11.	Create a style rule for the selector <b>cite img</b> that sets the <b>border-radius</b> property to <code>50%</code> .	3	
<b>Total</b>		<b>38</b>
